DISTRICT DAIRY MEET HELD HERE FOR 19 COUNTIES

A district dairy conference for 19 counties was held in West Liberty at the REA building Wednesday afternoon, sponsored by the Dairy Section of the University of Kentucky, The Kentucky Dairy Association and the Kentucky Farm Bureau.

Those attending were Dr. Dwight M. Seath, head of the University of Kentucky Dairy Section; Robert J. Wilson, American and Kentucky Dairy Association Representative; Kenneth Young, Kentucky Artificial Breeding Association representative; Roy Nickell and Jesse Wilkinson, representing the Kentucky Farm Bureau; Adrian Razor, Rowan County Agent; Charles Mason, Carter County Agent; Carl W. Sinclair, Morgan County Agent; Robert Wolfe, Assistant County Agricultural Agent in Training, Morgan County; R. H. Lickert, District Leader of County Agricultural Agents; Gay Blair and W. P. Caskey, Morgan County Home Administration supervisors; Dairy farmers attending were Mr. Little, the artificial breeding technician from Carter County; Harold Rose and Charles Edward Cecil from Morgan county, and Clayton Curtis from Rowan county.

Spring Grove Dairy from Morehead sent 75 half pints of milk for dairy refreshment. The group and Mr. Pete Rose, local groceryman cooled the milk in his locker. The sandwiches were prepared by Mrs. Melvyn Gardner and her West Liberty Teen-Age 4-H club members.

Dr. Dwight M. Seath told the group about the dairy research of the University Experiment Station. He said that better breeding, feeding, management and DHI testing were the tools for improving dairying in Kentucky.

Kenneth Young said artificial breeding is expanding in Kentucky, and told the group about the new techniques in this field. Jesse Wilkinson told the group that the Kentucky Farm Bureau (Continued on page five)

MAKES STATEMENT FOR EARL PRICE FOR POLICE JUDGE

I would like to make an appeal to the voters of West Liberty in behalf of my father, Earl Price, in his campaign for Police Judge of West Liberty. Practically all of you know him, but I feel there are a few things to be said that might let you know him better.

In spite of the fact that he has not had a position where he could go dressed up and spend much time on the street, I know his qualifications to perform the duties of Police Judge are excellent. He is not a native of West Liberty, but I am here to tell you that he is West Liberty ALL THE WAY.

He came here almost 30 years ago as Superintendent of the Wayne United Gas Co., a responsible position which he filled capably and well. Since shortly after the depression years when for economical reasons the company retired from its gas field here, he chose to remain here, rear his family here, bury his son here, rather than accept a well-paying job with the same gas company and move elsewhere.

He has had to scratch for a living the past few years, working in heavy iron and other metal. Even that work has had to be curtailed heavily the past year since he suffered a heart attack and his doctor advised him not to lift heavy iron and do such strenuous work.

In spite of his lack of a regular salary, I know him to be a generous man. He has farmed a small patch of land the past three years, and I would estimate that he has given away half his garden produce to those less fortunate than he. He has been generous down through the years, and not just the past few months. Hardly a day passes that someone does not come to him for help. I HAVE NEVER KNOWN HIM TO REFUSE HELP TO ANYONE.

There are many worthy things I could tell you about my father. However, he has never been one to seek praise. He has never been one to get up in a crowd and tell of the good things he has done and the good things he is going to do. He is so unassuming that he would be embarrassed, though pleased, if he knew I was writing these paragraphs in praise of him.

I know he is a Bible-reading man. He often rises an hour before daybreak and spends this hour in meditation and reading the Bible.

I am making this appeal not just because Earl Price is my father but knowing what I know about him and about his opponent, I would still vote for Earl Price for Police Judge next Tuesday.

Your vote in his behalf will be very much appreciated.

FLU CLOSES LOCAL AND CONSOLIDATED SCHOOLS TILL MON.

All schools in the county except rural school were closed Wednesday by Supt. Walter Jones because of high rate of absenteeism due to flu. Students in the following schools have been out since Wednesday morning: Ezel, Cannel City, Wrigley, Crockett, West Liberty Elementary school, Morgan County High and grade school.

Good Hunting In Morgan Predicted

As Morgan County Conservation Officer David Adams points to the end of the first half of the 1957 hunting season, he also predicted good hunting prospects for local sportsmen as he pointed to the opening of the second part of the 1957 Kentucky hunting season on November 20.

Adams said game surveys in Morgan county indicated a good local hunting season. State-wide prospects, according to wildlife biologists in Frankfort, are very good.

November 20 signals the big end of the 1957 Kentucky hunting season. The waterfowl season opens on November 7, followed by the kick-off of the small game season on Wednesday, Nov. 20.

Adams reminded local residents that hunting licenses are required for all hunters except resident land-owners hunting on land they own and on which they live, or persons over 65 years of age. Hunting licenses are for sale at the county clerk's office.

For full information on Kentucky hunting season, prospects and regulations, contact conservation officer Adams or write: Div. of Public Relations, Dept. of Fish and Wildlife Resources, Frankfort, Kentucky.

Employers, Employees Required To Have X-Rays, Examinations

Walter C. Blevins, Sanitarian of the Morgan County Health Department, reports that the Board of Health requires him to have all employers and employees have a blood test and physical examination every six months and a chest x-ray once every year. The employer and employees can get the blood tests at the Morgan County Health Department.

The nurse, Delia Kinney, will give these tests each Thursday. Employer and employees must go to their family doctor for their physical examinations. The Board of Health also requires the employer and employees who work in grocery stores to have blood tests every six months and a chest x-ray once a year. If it has been a year since the employer or employee has had a chest x-ray, he or she can go to Campton, Ky., for a free x-ray if the family doctor gives written permission. The Board advised Mr. Blevins to give all restaurants and lunch room operators notice to have these examinations. If the employer and employees do not cooperate, the Sanitarian will have authority to put up a sign in the establishment stating that the establishment is not approved by the Morgan County Board of Health. The establishments have cooperated fully, he will give to the establishment an "Approved" sign, with the signature of the Commissioner of Health, Director of the Morgan County Board of Health and the Sanitarian inpector.

The Health Department further announced that immunization clinics are held at the health office every Monday.

MORGAN VOTERS TO GO TO POLLS TUESDAY, NOV. 5

With only one state-wide race and two constitutional amendments to command their interest, Morgan countians are showing little interest in next Tuesday's general election.

And there will probably be a light vote—except in West Liberty where city officials are to be elected, and in two magisterial districts where there are races.

The lone state-wide race is that for the unexpired term of Clerk of the Court of Appeals. The Democratic nominee is Miss Doris Owens, now serving as clerk by appointment of the Court of Appeals. She is running for the remainder of the term of the late Charles K. O'Connell. Her Republican opponent is Charles Malcolm Green of Corbin.

And there are two constitutional amendments on the ballot. The fate of the two constitutional amendments appears to be in doubt and nothing has developed to arouse any great public interest in them. One would permit five amendments to be submitted at an election instead of the present limit of two. The other would abolish the elective office of state superintendent and authorize the state board of education to appoint the head of the public school system. Governor Chandler has announced his support of both the amendments.

A full set of county and district offices are to be elected in Morgan, the same as all other counties, but Democratic nominees have no opposition except in two magisterial races.

J. W. (Buck) Smith, Democrat, is opposing Okal Hutchinson, Republican for Magistrate in Dist. No. 2 composed of Pendleton, Paint, Dings, Crockett and Lenox precincts. And Oscar Bolin, Republican, is opposing Ervin Conley (who died Tuesday) in Dist. No. 5 composed of Salem, Adele, Cannel City, Caney and Malone precincts. Though the Democrat nominee died Tuesday, the ballots already had been printed listing him as the Democrat nominee.

EARL PRICE MAKES STATEMENT

I want to take this opportunity to thank each one of you who has shown an interest in my campaign for Police Judge of West Liberty.

I have but one promise to make you, and that is this: That I will conduct the duties of Police Judge fairly and honestly. I know the office is a responsible one. I am prepared to devote my time to carrying out these duties. I have responsibility of a Police Judge is to preside over his court. There is a City Council elected to take care of the city's business, but if the Council would need the assistance of the Judge in any way, they will turn to him for their meetings and he should be more than glad to serve.

There is one other thing I want to clear up. I am the first one to say that I am always been perfect. I have made mistakes which I regret, as many of us have, but a person has two choices he can make: he can choose to continue doing wrong or he can choose to do right. Seven years ago I made my stand for the right and I will put my record up against any man's.

I would like to add that I never was a man who tried to see any person get married to an office. If one person holds the same office for years and years, what is the use of educating your family if there would be no place for them to make a living? There is never one so good but that there is one found just as good.

So, my friends, Mr. Helton has had the office for seven years. Don't you believe it could be no more than fair for me to try one term, and if I don't suit, then you can vote me out just like you voted me in. I thank you.

(Pol. Adv.) EARL PRICE

JOHN HELTON MAKES STATEMENT

This will be the last time I will have the opportunity of calling to your attention my candidacy for Police Judge of the City of West Liberty. Since there are no contests in this election which have created any public interest locally, there will be little inducement for us to go to the polls and vote next Tuesday. However, I feel those of you who live in West Liberty are enough interested in good government that you will take time to go to the polls, if for nothing else, to vote in the election for city officials.

Those of you who know me at all know that I have worked long hours daily in the performance of my duties as Police Judge and I have given my entire time to the affairs of my office and to the City of West Liberty.

I am sure that you have been able to find me at all times when my services were needed and I have tried my best to perform my duties at all times in an honest and efficient manner, and if re-elected, I pledge to continue to give my entire time and attention to the duties of my office and the welfare of the City of West Liberty.

My opponent has indicated that this office requires little time or attention and that it should be only a part-time job, and I am sure that the citizens of West Liberty who are familiar with the business of this office, know that that is not so and that it is a full-time job, requiring the presence and attention of the Police Judge at all times to the affairs of this office.

I appreciate very much the kind expressions of so many people in regard to my candidacy and I want you to vote for me next Tuesday, and I want to assure you that your help will always be sincerely appreciated.

SCF Sponsor Visits Schools In County

A lady from Cleveland, Ohio, who sponsors the Wheelrim school through the SCF program, visited the school Tuesday with SCF Consultant, Arthur Hullette. She drove to Morgan from Cleveland just to visit the school and meet the children. She talked with them for about an hour Wednesday.

The school receives \$50 per year and the sponsor brought books, art supplies, a globe and other items. She also visited the Wyett school in Elliott and the Crockett school in Morgan.

She expressed her delight at the beauty of the hills and the forest at this time of the year. There are several schools in Morgan sponsored by SCF and receives money for purchasing of school supplies and at Christmas time the sponsors send gifts for all children. Arthur Hullette, consultant, supervises the program for nine counties in Eastern Kentucky.

Mr. Hullette said the object of the program is to work with the teacher, school officials and parents and helping the schools and children to have a better school. The SCF also sponsors schools in foreign countries and among the Indians. Dr. Ralph Sanders, president of the organization, with headquarters in New York, has visited Morgan county on two occasions and exhibited a sincere interest in the schools.

NOTICE TO ALL VETERANS

American Legion dues for the year 1958 are now due. As you all know, for many years Lynn B. For many years, the veterans of this county have supported the American Legion because of its untiring efforts on behalf of the veterans, and I hope you will continue to give it your support, and the only way you can fully support it is to pay your dues and become a member of it.

PLEA FOR SCHOOL AMENDMENT MADE BY SUPT. JONES

Nov. 5th the people of Kentucky will have an opportunity to determine whether we want to continue to elect a state superintendent as we now do or to choose a Commissioner of Education by another method. It is the opinion of our leading educators in the field of public education and the colleges that the Commissioner type of state school head is best.

The amendment on your ballot will be No. 2 and if passed would mean our chief state school head would be an appointive officer rather than an elective one. Most of the states that have progressive school systems use this method of selection.

This same amendment was tried back in the early twenties, along with the repeal of section 186 and both were defeated. Some three or four years ago, after 33 or 34 years, section 186 was again put before the people of Kentucky and was repealed by an overwhelming majority. Since then education has made much progress. As a result we are getting better buildings, better qualified teachers for our boys and girls.

I, personally, believe that a vote YES on this amendment would mean further progress in our public school system. Most of the school people know of the advantages that the passage of the amendment would give to education. The amendment would set up a nine member State Board of Education who would appoint a Commissioner of Education (corresponding to the present State Superintendent), determine policy and length of term and salary of the commissioner.

The advantages to this type of organization would be:
(1) A larger State Board of Education representing more equally the whole state, one member from each district and one member from the state at large.
(2) Board Members would serve longer terms of office (9 years after the first appointment).

(3) Vacancies caused by resignation or death would be filled by the remaining members of the board.

(4) Long range planning and a continuity of school programs as the board would not be subject to replacement every four years.

(4) Would provide a professional staff for the department of education selected for educational competence rather than on the basis of partisan politics.
(5) Provide for a continuing board of only four members could be appointed in any one governor's term.

The amendment is backed by the Kentucky Chamber of Commerce, Congress of Parents and Teachers, Kentucky Education Association, Department of Classroom Teachers, School Board Assn., and many other organizations interested in educational advancement. This is not a political issue but an attempt to bring about better administration and management of our public schools. The rewards from the passage of this amendment will not be reaped by me or the teachers or the voters this November but by the most precious things in our lives, OUR CHILDREN.

I urge you to give this serious thought, gather the facts and decide on the basis of good sound reasoning to vote YES and help to insure yourself of better schools.
WALTON JONES, Supt.
Morgan County Schools

58 FORD
COMING
NOV. 7

Nothing newer

AROUND THE WORLD

The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement.

The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaya, Thailand, Cambodia, Vietnam, and finally back to the place it started—Detroit, Michigan, U.S.A.

The Ford powered over the great mountain ranges of three continents: from the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Tigris, the Euphrates, the Indus, the Ganges.

This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and paused at the Eiffel Tower. It was greeted by the great Paris couturiers at the famous fashion salons where its "sculptured in steel" styling was applauded by the most style-conscious audience in the world.

The 58 Ford rode smoothly down the rugged, beautiful seacoast of Tito's country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon.

Into Turkey: and the 58 Ford passed the great white lacework palaces of the Sultans along the Bosphorus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And thence along the route Alexander the Great followed with his chariots to cross the historic Indus river.

On and on the Ford moved, down into the heat of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur.

This great new car met the challenge of the monsoons—rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok.

Further on came Saigon, the Paris of the Orient, at the farthest tip of Southeast Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan.

The 58 Ford . . . has been proved and approved around the world. A natural question arises. Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries?

The answer: in the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best.

The 1958 Ford is value: hard-dollar value. It is also style, power, performance, and a dozen great new features. But above all, it is value.

This is the car you've been waiting for. See it November 7—there's nothing newer in the world than the 58 Ford!

favoured legislation for the school milk program, disease control, and research in dairying.

Robert J. Wilson told the group that the American Dairy Association supported by dairy farmers were now sponsoring the Perry Como show for thirty minutes every two weeks. He also told the group about other work in educating the public concerning dairy products.

Dr. Dwight M. Seath handed out a check sheet and asked everyone to list problems of the dairy farmer which the University of Kentucky Experiment Station could help solve through research and experimentation.

This was one of ten meetings which the group is conducting over the state.

ANSWERS TO QUERIES ON BIBLE VERSE

YOCUM, Ky., Oct. 21—(By Cassie Lewis)—I am glad some of the other correspondents are reading Revelations and I hope some of you will be able to help Mrs. Caly Lewis of Zag to understand the meaning of the four beasts in Revelations fourth chapter, verses 6,7,8. I am a Bible reader, but I admit there is much of it I don't understand, but just in case some of you learned folk neglect to give her any help, I will try to help, as I have a Bible dictionary at hand.

First, I'd like to say that Ezekiel, chapter one, verse 10 gives about the same description as in Revelations of the four living creatures except Ezekiel described the face of an ox instead of the calf in Revelations. Read all the first chapter of Ezekiel. This cherub—a composite four-faced winged being—is described as an angel of very high rank.

Smith's Bible dictionary quote: Cherub means not only the composite creature form, of which the man, lion, ox and eagle were the elements, but further some pertaining to the church's representation of God's providence among men—the four faces expressing the characters of that providence. The face of man, it is wisdom and intelligence, the ox, it's strength; lion, it's kingly authority; eagle, it's swiftness and far-sighted. The description of the four living creatures in Revelation makes the Cherubim to represent God's redeemed people. Their facing four ways toward all quarters of the globe represents their duty of extending the truth. The wings show swiftness of obedience and only the redeemed can sing the song put in their mouth in Revelation, chapter five, verses 8-14 (end of quote).

So it is plain to see these four beasts are continually giving praise, honor and thanks to him that sat on the throne and is not to be confused with the four beast spoken of in Daniel seventh chapter.

Onyx Lewis and mother, Mattie Lewis of Ashland visited Wednesday of last week with her aunt, Rinda McKenzie of West Liberty. Aunt Rinda is 96 years of age and lives with her son Henry McKenzie. Before returning they also visited with Mr. and Mrs. Hollie Cox and Glen Johnson and family of Pomf, Elmo Lewis and family, Jim F. Engle, J. W. Cooper and Clarisa Dyer of Yocum.

Miss Myra Shaner left Yocum last week to do mission work in Menifee county.

Mr. and Mrs. Jim Watkins and sons of Dayton visited here Saturday with Thelma Peyton and Math Lewis.

Alva Riggsby and family of Morehead were calling on friends here Sunday.

Frank Oakley was dismissed from St. Joseph Hospital, Lexington Tuesday, Oct. 15th and is improving nicely. Frank did not have polio as was first reported, but sinus trouble instead.

F.H.A. HAS PIE SUPPER

FLORRESS, Ky., Oct. 22—(By Nora Easterling)—The Bible verses sent in by Clay Lewis of Zag, Rev. 4:6, 7 are the principle meaning and reason why and how the Bible was written. The sea of glass is a description of how the Holy City of God will look, and like unto crystal. The four beasts full of eyes, like a lion, like a calf, like the face of a man, like a flying eagle, are immediate attendants of God. They seem to represent all the created powers and agencies by which God administers his government over the world, which are all pervaded by God's Holy Spirit, and are ever ready to do his biddings and show his praises. Full of eyes, represents their ever watching to do God's bidding. God's creatures are not omniscient, but his omniscient directs all their movements. In other words: there is no power except the power of God. He gives power unto whom he will. A view of the four faces is representing the heads of the four divisions into which the Hebrews distributed the living creation, man, cattle, beast and birds uniting in themselves God's power. All that is great in creating ministers to God's will. Read Ezekiel 1st chapter. In a vision Ezekiel saw almost the same powers that John saw in Rev. 4:6, four beasts were as one with the wheel in a wheel. The same power moved them all and they turned not aside. Notice in chapter 5 verse 5 Revelation the elders compared Christ to the lion of the tribe of Juda, the root of David. John called him a lamb. So, the four beast would represent power directed by God and given by God, to move, grow or live. Even the Bible was written by inspired men of God, through this same Holy Spirit directed by God. Jesus was our Redeemer from the fall of Adam and was sent by God into the flesh without sin, and he only, is worthy to open the book on resurrection day.

Rev. Walter Johnson and Chester Lee, Mrs. Mary S. Lemaster and Ruby, Mrs. Alka Elam, Sharon Lane Aldridge, Dickie Williams, Mary Lou, Billy and Deborah Conley were Sunday afternoon guests of your writer.

Jerry Wells, teacher of the Lacy Creek school, motored up Honeymoon Holar and brought Mary Lou and Billy Conley home from school Friday afternoon.

Happy birthday Peggy Sue and Danny Ray Williams, Fairborn, Ohio.

I would be tickled pink to receive greeting cards from every one who reads Honeymoon Holar, Florress, news.

10 FT. BULL WHIP MADE IN MORGAN FOR WESTERNERS

A ten-foot bull whip made in
Morgan County, Ky. was shipped
this week to the Hays Leather
Mfg. Co. in Delta, Colo. The whip
was braided by W. H. "Tooger"
Wells of West Liberty, saddle
horse fancier and whip- and sad-
dle maker. It seems the Delta,
Colorado firm is short on work-
ers who can braid bull whips and
Mr. Wells' reputation had spread
to them. So they ordered one. He
braided it of deer hide buckskin
around a filling of rawhide. And
it's 10 feet long, and a dandy.

Mack Lewis was a business
visitor in Ashland over the week
end.
